Craft that *compounds.*

Twenty years making brands people believe in, with growth that holds up in the board meeting. I learned marginal gains at Sky, alongside the cycling team that made the idea famous, and I've run every creative team that way since: find the small things that compound, fix them and measure them. Today I run all creative output at Mindvalley, working directly with the CEO, with **more than $1M a month in ad spend** riding on the work and AI systems that let a lean team produce like a large one.

+93%	+77%	~2×	$1M+	+30%	1.7M
Revenue in 18 months at Veloforte	New members from an AI launch	Customer lifetime value at Mindvalley	Monthly ad spend directed	Growth in month one at Go City	People onto bikes with Sky

01 Experience

2024 TO NOW
REMOTE · GLOBAL

Mindvalley Creative Director & Head of Content

3M+ students in 190 countries

- **77% more new members** from a flagship AI product launch I shaped, the strongest product result in two years.
- **Roughly doubled customer lifetime value** by moving content from hard sell to trust first. The personalised learning pathway that came out of it is now part of the product.
- Direct **$1M+ a month** in performance marketing and answer for the ROAS it has to earn.
- Directed the highest-rated programme in the company's history, an award-winning masterclass staged as a live event.
- Run brand, content, film, performance and social, and lead the creative services team across production, post, design and social.
- Built the AI production pipelines and a data programme that turns audience behaviour into content decisions, so the team makes fewer things and makes them better.

2024
LONDON

Go City Creative Director

+30% growth in the first month

- Took on the creative operation of a global, private-equity-backed travel business spread across thirty-odd cities. I found what was quietly gumming it up and cleared it out, and growth jumped in month one because the whole operation finally ran clean.

2022 TO 2023
UK

Veloforte Creative Director

+93% revenue in 18 months

The UK's fastest-growing natural sports nutrition company.

- Built the creative team from a blank page and owned the whole brand: identity, tone of voice, packaging, film, B2B partnerships and the ambassador and influencer programme.
- Directed every shoot from brief to delivery. **E-commerce grew 60% year on year.**

2021 TO 2022
ALONGSIDE VELOFORTE

Le Blanq Creative Director

Ultra-premium cycling travel

- Creative strategy and brand content for luxury trips on the most beautiful roads on earth. A brand that was already gorgeous had to stay gorgeous on the page, so every frame earned its place.

2010 TO 2021

LONDON

Sky Senior Creative

Promax UK Creative of the Year

- Eleven years across Sky News, Sports, Entertainment, Movies and Corporate Comms, and part of the team named Promax UK Agency of the Year.
- Led cycling work that helped get **1.7 million people in the UK onto a bike** for the first time, during the years Team Sky took a Briton to the top of the Tour de France. Also contributed to Sky Ocean Rescue.

02 How I work

01 Creative direction

Identity, art direction, film and design. I set the standard and hold it, and twenty years in I'm still in the edit.

02 Content and growth

Content wired to the commercials: positioning, channels, the full funnel, ROAS, VSLs and hook frameworks for cold audiences.

03 AI systems

AI creative pipelines, prompt engineering and custom tools, so teams ship more without shipping worse. People keep the final word.

04 Leadership

Teams built from scratch across production, post, design and social, with clear structure, honest feedback and room for good people to surprise you.

03 On stage

Speaker at Mindvalley events, sharing the stage with **Vishen Lakhiani**, founder of Mindvalley, and **Daniel Priestley**, founder of Dent Global and author of *Oversubscribed*, building working AI prompts live in front of a full room.

Gareth.
